Identity

Game Title: "Enter in disguise, Steal!"

Game Icon:

Concept Statement

An isometric singleplayer pixel-art stealth game where every heist is different. Plan your route, blend in with your disguise, steal the gold, and escape before you're caught. Played in short sessions with infinite replayability.

Genre & Audience

- **Genre:**
 - Isometric
 - Stealth
 - Roguelike
- **Players:**
 - Single-player

Visual Style

- Isometric camera angle
- 3D pixelart
- Simple graphics

Setting

The player is a member of a small underground crime organization that focuses on theft. For the duration of a run he should be constantly weary of his surroundings and plan carefully.

As a new member of their gang, the player is tasked with the theft of valuable objects from the surrounding houses.

Features

Scheinbedingungen

- Simple Character Editor (*doesn't fulfill the requirements*)
- Completely Procedural Building based level generation
- *And everything has sound!*

Additional

- Grid based movement using mouse interaction (*Lmb*)
- Enemy pathfinding
- Camera rotation (*q and e or on screen buttons*)

Appendix

Grid based procedural room generation:
